

## Press Release

### Forest Stewardship Council® - FSC® vouches for the sustainability of Parquet Wicanders®

#### Amorim Flooring and Dow Korkowy certified

To choose Parquet Wicanders® products is to acquire flooring produced in accordance with the exacting international standards of the Forest Stewardship Council, defined to ensure sustainable development. The award of the Forest Stewardship Council® - FSC® certificate to Parquet Wicanders®, created by Amorim Flooring (AF) and Dom Korkowy (an AF subsidiary) guarantees that the raw materials used, in this case wood, come from sustainable and controlled sources and production follows an appropriate, socially just, economically viable process which complies with governing legislation. FSC certifications are valid for a five-year period, with yearly external audits of the corresponding products such as the one carried out recently, in which compliance with all the standards of the certifying body was confirmed.

For more information please contact the respective Amorim country organisation or appointed representative.
